

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1 (currently amended): A method of accessing a nonvolatile memory, the
5 nonvolatile memory being installed in an electronic device and
comprising a plurality of zones, each zone comprising a plurality of
spare blocks, the method comprising the following steps:
(a) determining if a look up table is stored in each zone of the
10 nonvolatile memory, and if the zones of the nonvolatile memory do
not contain a corresponding look up table, storing a look up table
of each zone in at least a spare block of the zone;
(b) the electronic device ~~obtaining~~ calculating one of the zones of the
nonvolatile memory corresponding to a logic address [[of]] used by
a host for accessing the nonvolatile memory;
15 (c) the electronic device reading the look up table of the zone ~~obtained~~
calculated in step (b) from at least one of the spare blocks and
storing the look up table in a memory of the electronic device; and
(d) the host accessing the nonvolatile memory according to the look up
table stored in the memory of the electronic device.

20 2 (cancelled).

3 (currently amended): The method of claim 1 wherein the method further
comprises determining if the zone ~~obtained~~ calculated in step (b)
25 equals the zone corresponding to the look up table stored in the
memory of the electronic device.

Appl. No. 10/708,445
Amdt. dated September 04, 2006
Reply to Office action of July 14, 2006

4-5 (cancelled).

6 (original): The method of claim 1 wherein the nonvolatile memory is a
flash memory.

5

7 (original): A device for implementing the method of claim 1.
